Our Services

Social Research & Consultancy Services

In Social research and consultancy services, TRIOs weaves excellence in strategy development and planning, result-based management, technical support, evidence-based research, evaluation and capacity development to the social sector. Our core expertise is in public health and nutrition, education, water and sanitation, rural development and livelihood. We provide specialised technical and management support services to clients and support in executing corporate social responsibility (CSR) interventions, and in-sourcing of human resource for implementation and monitoring of projects and programs to maximise impact.

Market Research & Advisory Services

TRIOs has expertise in market and business intelligence. We undertake market studies and surveys, modelling and analytics on consumer, industry, trade, and customer satisfaction aspects for its clients in the corporate world and the governments, which aids business-to-business (B2B) and business-to-consumer (B2C) decisions. We provide advisory services for appropriate market positioning; undertake competitor analysis; identify the consumer preferences; explore product innovations and development; and provides best quality creative business solutions within the committed time and cost. We help our clients for well informed decision making based on market research and intelligence for their Brands, Products and/or Services.
